I'm rushing it so that I can get it out so if it sounds like I repeat myself or my spelling or anything it's because of that. They have my phone on that ship an iPad didn't come out of the port and hit a button. My phone blinks when I'm trying to write something good on Facebook or something. This is the sickest thing I've ever seen in my life on the victim. Please put a stop to them

me I can get you their names they might've changed them again. They see my every move. They can read your thoughts. Your thoughts go up and they can. They can speak before I even get a thought out of my head there can be five or six or seven of them packed in at my head and I heard all the voices for years. I know what each one of them sounds like someone I know who they are and some I don't I know who the father is. I know who McGillis is. I know who Janine Devenzin in a few I wouldn't want to get in trouble they can shoot things into my body suck everything out of my body don't that'll be good, they have my phone that ship has had my phone wired. citizen under the Bill of Rights and Constitution ain't in no government. They might have me on there like I work for the government or something. I don't know how the heck this is happening. I don't need to put any of them in jail or court Marshall but I want millions of dollars and maybe some protection somewhere in the country me and my wife like the beach. I'm telling you they'll be able to find me and they could kill me so I'm not gonna try to put them in jail, but I want money whether I gotta personally assume or the government I wouldn't do it for \$1 billion again, please contact me or have a military get a hold of my federal attorneys. All I want is to get money and walk away. I'll leave America. I just don't wanna die and lose my wife or be tied off down the road and Killed. I'm not really wanting to press charges, but I don't wanna die and I don't wanna be tortured another day. But some millions would sure be good. I'm 62 years old my wife 67 but very beautiful and sweet and lovely. please somebody fly me in my wife they tie off at my voice box. They're so high tech and so high up in God and up in that origin and more for a military they can make it sound like it's me sometimes some of them talk through me and my wife here's a daily not sometimes Since I've known her and she knows it's another guy. She sometimes says I know that ain't she knows it she knows it so what can I do to me with the hierarchies keep getting orders if I'm saying, I hate God or anything like that they just keep hurting me. I wouldn't take all the money in the world to go through it, but please get my wife and me some money and make sure they never get in our lives again or military protection our number I can call if I feel like they show up at my house and start tying me off or something Please somebody call me. I'm not crazy. I am so on the money run their names and figure out if I'm telling the truth call

smoosh the people up in eye after they go up to the hierarchies my friends on Facebook I have hundreds of them and they sauce it up I have never drank so much in my life because they have been torturing me all these years. I can't help it. They hurt me so bad they can get me in like the guillotine where crimps my whole body they can hurt me in ways. We're using terrorist in foreign countries, Al-Quadin, Hamas, and terrorist. Please Please contact me. I gotta get out of California. They have home still in Santa Barbara. They have a lot of connections and Vandenberg Air Force Base, where I think the father and & McGill he worked out a better believe it. I don't know if they have me like as a government employee on the weekends when others come onto the ship it's like they're looking in on me and like I don't know what what they're expecting but some of them want me dead they have a hatred for me and I don't know how they're up in a place like that with a hatred towards a person who loves Jesus so much and notices Bible so well even though I might not a guy ever got up There, but I gotta get out of this house if this port comes out I'm gonna need military protection if I were to put one of them in jail, they'd kill me all they gotta do is send them from the ship or other ships or they have friends on our connections that are up in that origin They can kill you in a few minutes, but I've been crying bloody murder on Facebook and people will know I'm putting their names out there and everything. I'm trying to save my life. But they're so high with the government and military. Most of my friends can't stop them and they lie and deceive. They're never bringing me up and I don't know why they're getting paid by the military, but I know they owe the military money back if I don't die I'm an American citizen under the Bill of Rights and Constitution ain't in no government. They might have me on there like I work for the government or somethina. I don't know how the heck this

what they put me through. but I wouldn't do it for \$1 billion all the money in the world again, I hope my wife don't leave me. We've been married since August Jesus are holy spirit of God pull the cat out of the hat with her. She's the one I've been waiting for all my life. She should be a saint or an angel I can't even believe she married me. It was worse at our last apartment now we're up in Ojai, California 190 Fairway Ln. Ojai California 93023 good They lock onto my house the military on weekends and they have so much stuff where they can see me at all times they can bring my bedroom up and have it up in in there like station a bit below the God origin or realm because they have a port or something up there where they brought me up twice and kind of fix me up, but when it went bad, it went bad. I don't deserve to die or be tortured anymore. Please stop them. My phone number is 310.269-9894 my wife is beautiful the sweetest thing you've ever seen and she loves Jesus she's the most friendly loving pretty woman I've ever seen and they stripped me within seconds if I wake up on a kick stand or to make love at night or anytime they're in our bedroom they're in our bathroom And they strip everything out of my system. Even Viagra won't work testosterone shots. They can strip it in seconds, and I can't make love to my wife and they don't care. This is the sickest twisted thing I've ever seen in my entire life and it's happening to me. Sometimes if some of them aren't around or it's right, I get her, but I don't wanna lose her. This is the best one I've ever had in all my life, woman and women only. They kept telling me they were gonna bring me up. They kept telling me they're gonna get the port out of my head or bring me so many times they are not, and they smoosh the people up in eye after they go up to the hierarchies my friends on Facebook

thoughts before I even speak. I'm not crazy. It's the truth you call some of your spiritual commanders are very high up there in that origin of God Realm. They'll tell you it's true that's why it's so top secret and the military is higher than most of them because you're protecting America and America is a biblical thing in the book of revelation so I ain't gonna give no secrets away or anything. I've always backed America. I loved Reagan, I have got probably 2000 posts how I've been hurt for years. I only started about a year and a half or two years but when it first went bad, I was getting pounded running out of hotel rooms in the middle of the night they would pin me and hurt me so bad for the first two years. I think they had me on another ship. and they've been back around for three or four it's about that long cause I know Trump was in office when it started. i'm somebody born with the attention, span and learning disability and concentration level and I have been mentally tormented for years and physically. I'm gonna need government protection. If I wanted to put these people in jail, I read attempted murder his life in prison I saw the news a guy spilled a cup of coffee at Starbucks and got \$50 million. I go I should be a trillionaire. You couldn't imagine what I have been through. I could show you my post that my friends went up to the hierarchies that are up that work for the military and our spiritual up in that God origin I realm. Some of them even the one hiding in me don't want to see me die but they get commanded because they're higher up in the military and they're higher up in that God origin realm with God because they're in a government position, my hand on the Bible, I would not go through what they put me through. but I wouldn't do it for \$1 billion all the money in the world again, I hope my wife don't leave me. we're going how are you skinny are you sick my wife she knows I eat a ton so many supplements good food she knows it's all true, but they can block it through the pork some of the deities in theys can come into my head through the porter window in my head and I hear him and my whole left earplugs up And they can block anything good going up and keep it down even when I eat so I look like a abuser, so my prayers are nothing or heard, i'm not crazy, they hurt my stomach always upset for a year I start to smoke. This is for real, but I didn't sign up for this and I didn't ever go into government service or military or anything. My stepdad was a lifetime military men shell anglin but I'm a civilian I keep saying let me go. I won't tell anybody "scriptures and day after day I'm tortured, I mean, mentally and physically for the last five years, plea please put a stop to them, I have helped the wounded warriors. I've helped about every charity. You could imagine throughout my life, but I'm not rich now. I had to sell a property with 200,000 hiring attorneys, nobody could figure it out or get me help. I finally just hired some federal attorneys, but they're moving too slow, and I'm almost out of money trying to get help and fight this thing and I got married and went on honeymoon and stuff, but I'm not rich, my body is so depleted. I'm scared. I'm gonna die when that deities or angels that hides in me go hopefully, they can strengthen me like I'm strong and I know it's him, I am so weak and frail I don't know if any of my organs are gonna work my kidneys. They ties off to my stomach and I think at my heart & brain they can read my thoughts before I can say them, not crazy, because they read them your thoughts go out I found out God is showing incredible. Your thoughts go up, but they can read my thoughts before I even speak. I'm not crazy. It's the truth you call some of your spiritual

come out and hurt me, I pop so many in my old apartment they would somehow go sucked threw the port in my head, ten come back but they get commanded and I think pitchback gives commands McGillis & Devenzin, maybe even Hillary or bill Clinton, I have quoted him so much Bible I know the Bible so well like a Bible scholar and they don't care cause they're up in that God origin realm. My brain somehow didn't figure it out a lot of my friends are up there, but I was born with something that my brain doesn't operate like others, some of them just didn't want me up there that hate me, I've got brought up twice, but some of them just didn't like me and hated me and so I think, DEVENZIN owes them government a million 3 & has to pay back %10 and McGillis and Pinchback, I think if im dead they don't have to pay it back. I have never drank in so much in my life that's because the last 5 years they hide in me and have had control over my whole body can take my food out stripping it sucking it out, the deities or angels hiding in me can control my mental, putting weird stuff in it. They have a port in my head or a window, and it's been there since the beginning in the beginning angels indeed were coming through it in the military was locking on it and they were running it, and hunting any part of my body,, one of them there can be five or six or seven of them at a time looking into me or shooting thing or sucking thing out my skin oils, so much more, through that window or port that's been in my head from the beginning, and they can go into my body tie off my organs strip all my fluids oils out cramp any part of my body hit my organs they can do about anything lately. They've been hitting my heart. I got so thin tying off my stomach my digestion I got so thin my wife's brother and mom we're going how are you skinny are you sick my wife she knows I eat a ton so many

they would strip all my strength, or the military was looking onto wherever I stayed in Texas and they were running things for the military in ships or somewhere they said deities and angels coming through the port in my head. I finally just put two and two together why I can't get help from the inspector general of the Navy or anyone is because they might be independent contractors for the military. They come on board Friday till Sunday and get military back up after the eight months, it went bad. I was trying to make peace with somebody that was high in the military and high up with God after 30 minutes I couldn't take it anymore. I was so delirious night after now and they had me wound so tight for the first time in eight months after trying to make peace I snapped a bit on him and I've been running for my life ever since. I would be dead if it wasn't for my hundreds, of friends on Facebook & spiritual, and ones that work with the military go up to the hierarchies I must have 2000 texts over the last years's posts how they hurt me day and night, I'm sure I would've been dead but they go talk to the hierarchies and try to get them off me, but they're in higher positions because they're with the military and I've been so close to death so many times and scream bloody murder and torture. Last night was bad. I'm scared of gonna lose my new wife the one I've been waiting for my whole life. She's praying to Jesus I keep trying to get it to stop every way. They had me shaking sweating and it ain't alcohol or drugs & I was Moaning Please stop them. I don't need to give out Intel secrets. It's a top secret ship very spiritual people sitting in their chairs are their beds and they go up to I God, orgin God realm and take on the form of angels or deities and that ship is full of them, they can send anyone to hurt me of the many of my friends are on it, but they can come out and hurt me, I pop so many in my old apartment they would somehow go

Clinton comes on the ship that the Clintons might own part of the ship and the father Joe Pinchback he was very rich. He had a factory below my mom's house when I was a kid they're all from Goleta Santa Barbara area like me I knew the CIA and Jeanne devinzen in the ninth grade. I believe they ended up moving to Texas and now they reside in Kihei, Maui, Pinchback, and McGillis or next-door neighbors, things went bad. They hurt me for a while in the beginning, accusing me of all this crazy stuff and then they realized how good I knew the Bible, and when I was up in the mountains of Blairsville Georgia, all I did was reading my Bible and jaw closer to God and watch Christian TV, but my wife wasn't happy and left up there so I went to Texas thought I'd reboot at Joel Osteen's church church. What a mistake, devenzin recognize me there that's when I Shanghai they worked with me for about eight first eight months after they beat me down bad I thought I was gonna die. They realized I knew the Bible and I started working with them for about eight months and it went bad. I was born with that learning disability and my attention span and sleepy brain is I don't have a normal brain I. I was born with it for reasons my dad. I don't even think they knew what ADD was back then, the 60's sent me to UCSB COLLEGE, didn't do anything, I couldn't read. I get lost in a paragraph. I didnt learn to read until after high in school the Bible and news paper thing that mattered. My attention span was so bad so they kept keeping me up the first eight months working with CIA special opps, I was so delirious and keeping me weak that I couldn't even say a sentence properly I would do push-ups and situps, and they would strip all my strength, th the military was locking onto wherever I stayed in Texas and they were running things for the military in ships or somewhere they said

I used to watch you and Sarah Huckabee, I always pull for you. I have been brutally savagely tortured the last five out of six years you were in office. me I can get you their names they might've changed them again. They see my every move. They can read your thoughts. Your thoughts go up and they can. They can speak before I even get a thought out of my head there can be five or six or seven of them packed in at my head and I heard all the voices for years. I know what each one of them sounds like someone I know who they are and some I don't I know who the father is. I know who McGillis is. citizen under the Bill of Rights and Constitution ain't in no government. They might have me on there like I work for the government or something. I don't know how the heck this is happening. I don't need to put any of them in jail or court Marshall but I want millions of dollars and maybe some protection somewhere in the country me and my wife like the beach. I'm telling you they'll be able to find me and they could kill me so I'm not gonna try to put them in jail, but I want money whether I gotta personally assume or the government I wouldn't do it for \$1 billion again, please contact me or have a military get a hold of my federal attorneys. All I want is to get money and walk away. I'll leave America. I just don't wanna die and lose my wife or be tied off down the road and Killed. I'm not really wanting to press charges, but I don't wanna die and I don't wanna be tortured another day. But some millions would sure be good. I'm 62 years old my wife 67 but very beautiful and sweet and lovely. please somebody fly me in my wife they tie off at my voice box. They're so high tech and so high up in God and up in that origin and more for a military they can make it sound like it's me sometimes some of them talk through me and my wife here's a daily not sometimes Since I've known her and she knows it's another guy. She sometimes says I know that ain't she knows it she knows it so what can I do to me with the hierarchies keep getting orders if I'm saying, I hate God or anything like that they just keep hurting me. smoosh the people up in eye after they go up to the hierarchies my friends on Facebook I have hundreds of them and they sause it up I have never drank so much in my life because they have been torturing me all these years. I can't help it. They hurt me so bad they can get me in like the guillotine where crimps my whole body they can hurt me in ways. We're using terrorist in foreign countries, Al-Quadin, Hamas, and terrorist. Please Please contact me. I gotta get out of California. They have home still in Santa Barbara. They have a lot of connections and Vandenberg Air Force Base, where I think the father and & McGill he worked out a better believe it. I don't know if they have me like as a government employee on the weekends when others come onto the ship it's like they're looking in on me and like I don't know what what they're expecting but some of them want me dead they have a hatred for me and I don't know how they're up in a place like that with a hatred towards a person who loves Jesus so much and notices Bible so well even though I might not a guy ever got up There, but I gotta get out of this house if this port comes out I'm gonna need military protection if I were to put one of them in jail, they'd kill me all they gotta do is send them from the ship or other ships or they have friends on our connections that are up in that origin They can kill you in a few minutes, but I've been crying bloody murder on Facebook and people will know I'm putting their names out there and everything. I'm trying to save my life. But they're so high with the government and military. Most of my friends can't stop them and they lie and deceive. They're never bringing me up and I don't know why they're getting paid by the military, but I know they owe the military money back if I don't die I'm an American citizen under the Bill of Rights and Constitution ain't in no government. what they put me through. but I wouldn't do it for \$1 billion all the money in the world again, I hope my wife don't leave me. We've been married since August Jesus are holy spirit of God pull the cat out of the hat with her. She's the one I've been waiting for all my life. She should be a saint or an angel I can't even believe she married me. It was worse at our last apartment now we're up in Ojai, California 190 Fairway Ln. Ojai California 93023 good They lock onto my house the military on weekends and they have so much stuff where they can see me at all times they can bring my bedroom up and have it up in there like station a bit below the God origin or realm because they have a port or something up there where they brought me up twice and kind of fix me up, but when it went bad, it went bad. I don't deserve to die or be tortured anymore. Please stop them. My phone number is 310.269-9894 my wife is beautiful the sweetest thing you've ever seen and she loves Jesus she's the most friendly loving pretty woman I've ever seen and they stripped me within seconds if I wake up on a kick stand or to make love at night or anytime they're in our bedroom they're in our bathroom And they strip everything out of my system. Even Viagra won't work testosterone shots. They can strip it in seconds, and I can't make love to my wife and they don't care. This is the sickest twisted thing I've ever seen in my entire life and it's happening to me. Sometimes if some of them aren't around or it's right, I get her, but I don't wanna lose her. This is the best one I've ever had in all my life, woman and women only. They kept telling me they were gonna bring me up. They kept telling me they're gonna get the port out of my head or bring me so many times they are not, and they smoosh the people up in eye after they go up to the hierarchies my friends on Facebook

thoughts before I even speak. I'm not crazy. It's the truth you call some of your spiritual commanders are very high up there in that origin of God Realm. They'll tell you it's true that's why it's so top secret and the military is higher than most of them because you're protecting America and America is a biblical thing in the book of revelation so I ain't gonna give no secrets away or anything. I've always backed America. I loved Reagan, I have got probably 2000 posts how I've been hurt for years. I only started about a year and a half or two years but when it first went bad, I was getting pounded running out of hotel rooms in the middle of the night they would pin me and hurt me so bad for the first two years. I think they had me on another ship. and they've been back around for three or four it's about that long cause I know Trump was in office when it started. i'm somebody born with the attention, span and learning disability and concentration level and I have been mentally tormented for years and physically. I'm gonna need government protection. If I wanted to put these people in jail, I read attempted murder his life in prison I saw the news a guy spilled a cup of coffee at Starbucks and got \$50 million. I go I should be a trillionaire. You couldn't imagine what I have been through. I could show you my post that my friends went up to the hierarchies that are up that work for the military and our spiritual up in that God origin I realm. Some of them even the one hiding in me don't want to see me die but they get commanded because they're higher up in the military and they're higher up in that God origin realm with God because they're in a government position, my hand on the Bible, I would not go through what they put me through. but I wouldn't do it for \$1 billion all the money in the world again, I hope my wife don't leave me. we're going how are you skinny are you sick my wife she knows I eat a ton so many supplements good food she knows it's all true, but they can block it through the pork some of the deities in theys can come into my head through the porter window in my head and I hear him and my whole left earplugs up And they can block anything good going up and keep it down even when I eat so I look like a abuser, so my prayers are nothing or heard, i'm not crazy, they hurt my stomach always upset for a year I start to smoke. This is for real, but I didn't sign up for this and I didn't ever go into government service or military or anything. My stepdad was a lifetime military men shell anglin but I'm a civilian I keep saying let me go. I won't tell anybody "scriptures and day after day I'm tortured, I mean, mentally and physically for the last five years, plea please put a stop to them, I have helped the wounded warriors. I've helped about every charity. You could imagine throughout my life, but I'm not rich now. I had to sell a property with 200,000 hiring attorneys, nobody could figure it out or get me help. I finally just hired some federal attorneys, but they're moving too slow, and I'm almost out of money trying to get help and fight this thing and I got married and went on honeymoon and stuff, but I'm not rich, my body is so depleted. I'm scared. I'm gonna die when that deities or angels that hides in me go hopefully,they can strengthen me like I'm strong and I know it's him, I am so weak and frail I don't know if any of my organs are gonna work my kidneys. They ties off to my stomach and I think at my heart & brain they can read my thoughts before I can say them,not crazy,because they read them your thoughts go out I found out God is showing incredible. Your thoughts go up, but they can read my thoughts before I even speak. I'm not crazy. It's the truth you call some of your spiritual

come out and hurt me, I pop so many in my old apartment they would somehow go sucked threw the port in my head, ten come back but they get commanded and I think pitchback gives commands McGillis & Devenzin, maybe even Hillary or bill Clinton, I have quoted him so much Bible I know the Bible so well like a Bible scholar and they don't care cause they're up in that God origin realm. My brain somehow didn't figure it out a lot of my friends are up there, but I was born with something that my brain doesn't operate like others, some of them just didn't want me up there that hate me, I've got brought up twice, but some of them just didn't like me and hated me and so I think, DEVENZIN owes them government a million 3 & has to pay back %10 and McGillis and Pinchback, I think if im dead they don't have to pay it back. I have never drank in so much in my life that's because the last 5 years they hide in me and have had control over my whole body can take my food out stripping it sucking it out, the deities or angels hiding in me can control my mental, putting weird stuff in it. They have a port in my head or a window, and it's been there since the beginning in the beginning angels indeed were coming through it in the military was locking on it and they were running it, and hunting any part of my body,, one of them there can be five or six or seven of them at a time looking into me or shooting thing or sucking thing out my skin oils, so much more, through that window or port that's been in my head from the beginning, and they can go into my body tie off my organs strip all my fluids oils out cramp any part of my body hit my organs they can do about anything lately. They've been hitting my heart. I got so thin tying off my stomach my digestion I got so thin my wife's brother and mom we're going how are you skinny are you sick my wife she knows I eat a ton so many

Texas and they were running things for the military in ships or somewhere they said deities and angels coming through the port in my head. I finally just put two and two together why I can't get help from the inspector general of the Navy or anyone is because they might be independent contractors for the military. They come on board Friday till Sunday and get military back up after the eight months, it went bad. I was trying to make peace with somebody that was high in the military and high up with God after 30 minutes I couldn't take it anymore. I was so delirious night after now and they had me wound so tight for the first time in eight months after trying to make peace I snapped a bit on him and I've been running for my life ever since. I would be dead if it wasn't for my hundreds, of friends on Facebook & spiritual, and ones that work with the military go up to the hierarchies I must have 2000 texts over the last years's posts how they hurt me day and night, I'm sure I would've been dead but they go talk to the hierarchies and try to get them off me, but they're in higher positions because they're with the military and I've been so close to death so many times and scream bloody murder and torture. Last night was bad. I'm scared of gonna lose my new wife the one I've been waiting for my whole life. She's praying to Jesus I keep trying to get it to stop every way. They had me shaking sweating and it ain't alcohol or drugs & I was Moaning Please stop them. I don't need to give out Intel secrets. It's a top secret ship very spiritual people sitting in their chairs are their beds and they go up to I God, orgin God realm and take on the form of angels or deities and that ship is full of them, they can send anyone to hurt me of the many of my friends are on it, but they can come out and hurt me, I pop so many in my old apartment they would somehow go

I was so delirious night after now and they had me wound so tight for the first time in eight months after trying to make peace I snapped a bit on him and I've been running for my life ever since. I would be dead if it wasn't for my hundreds, of friends on Facebook & spiritual, and ones that work with the military go up to the hierarchies I must have 2000 texts over the last years's posts how they hurt me day and night, I'm sure I would've been dead but they go talk to the hierarchies and try to get them off me, but they're in higher positions because they're with the military and I've been so close to death so many times and scream bloody murder and torture. Last night was bad. I'm scared of gonna lose my new wife the one I've been waiting for my whole life. She's praying to Jesus I keep trying to get it to stop every way. They had me shaking sweating and it ain't alcohol or drugs & I was Moaning Please stop them. I don't need to give out Intel secrets. It's a top secret ship very spiritual people sitting in their chairs are their beds and they go up to I

God, origin God realm and take on the form of angels or deities and that ship is full of them, they can send anyone to hurt me of the many of my friends are on it, but they can come out and hurt me, I pop so many in my old apartment they would somehow go

come out and hurt me, I pop so many in my old apartment they would somehow go sucked threw the port in my head, ten come back but they get commanded and I think pitchback gives commands McGillis & Devenzin, maybe even Hillary or bill Clinton, I have quoted him so much Bible I know the Bible so well like a Bible scholar and they don't care cause they're up in that God origin realm. My brain somehow didn't figure it out a lot of my friends are up there, but I was born with something that my brain doesn't operate like others, some of them just didn't want me up there that hate me, I've got brought up twice, but some of them just didn't like me and hated me and so I think, DEVENZIN owes them government a million 3 & has to pay back %10 and McGillis and Pinchback, I think if im dead they don't have to pay it back. I have never drank in so much in my life that's because the last 5 years they hide in me and have had control over my whole body can take my food out stripping it sucking it out, the deities or angels hiding in me can control my mental, putting weird stuff in it. They have a port in my head or a window, and it's been there since the beginning in the beginning angels indeed were coming through it in the military was locking on it and they were running it, and hunting any part of my body, one of them there can be five or six or seven of them at a time looking into me or shooting thing or sucking thing out my skin oils, so much more, through that window or port that's been in my head from the beginning, and they can go into my body tie off my organs strip all my fluids oils out cramp any part of my body hit my organs they can do about anything lately. They've been hitting my heart. I got so thin tying off my stomach my digestion I got so thin my wife's brother and mom we're going how are you skinny are you sick my wife she knows I eat a ton so many

we're going how are you skinny are you sick my wife she knows I eat a ton so many supplements good food she knows it's all true, but they can block it through the pork some of the deities in theys can come into my head through the porter window in my head and I hear him and my whole left earplugs up And they can block anything good going up and keep it down even when I eat so I look like a abuser, so my prayers are nothing or heard, i'm not crazy, they hurt my stomach always upset for a year I start to smoke. This is for real, but I didn't sign up for this and I didn't ever go into government service or military or anything. My stepdad was a lifetime military men shell anglin but I'm a civilian I keep saying let me go. I won't tell anybody "scriptures and day after day I'm tortured, I mean, mentally and physically for the last five years, plea please put a stop to them, I have helped the wounded warriors. I've helped about every charity. You could imagine throughout my life, but I'm not rich now. I had to sell a property with 200,000 hiring attorneys, nobody could figure it out or get me help. I finally just hired some federal attorneys, but they're moving too slow, and I'm almost out of money trying to get help and fight this thing and I got married and went on honeymoon and stuff, but I'm not rich, my body is so depleted. I'm scared. I'm gonna die when that deities or angels that hides in me go hopefully,they can strengthen me like I'm strong and I know it's him, I am so weak and frail I don't know if any of my organs are gonna work my kidneys. They ties off to my stomach and I think at my heart & brain they can read my thoughts before I can say them,not crazy,because they read them your thoughts go out I found out God is showing incredible. Your thoughts go up, but they can read my thoughts before I even speak. I'm not crazy. It's the truth you call some of your spiritual

thoughts before I even speak. I'm not crazy. It's the truth you call some of your spiritual commanders are very high up there in that origin of God Realm. They'll tell you it's true that's why it's so top secret and the military is higher than most of them because you're protecting America and America is a biblical thing in the book of revelation so I ain't gonna give no secrets away or anything. I've always backed America. I loved Reagan, I have got probably 2000 posts how I've been hurt for years. I only started about a year and a half or two years but when it first went bad, I was getting pounded running out of hotel rooms in the middle of the night they would pin me and hurt me so bad for the first two years. I think they had me on another ship. and they've been back around for three or four it's about that long cause I know Trump was in office when it started. i'm somebody born with the attention, span and learning disability and concentration level and I have been mentally tormented for years and physically. I'm gonna need government protection. If I wanted to put these people in jail, I read attempted murder his life in prison I saw the news a guy spilled a cup of coffee at Starbucks and got \$50 million. I go I should be a trillionaire. You couldn't imagine what I have been through. I could show you my post that my friends went up to the hierarchies that are up that work for the military and our spiritual up in that God origin I realm. Some of them even the one hiding in me don't want to see me die but they get commanded because they're higher up in the military and they're higher up in that God origin realm with God because they're in a government position, my hand on the Bible, I would not go through what they put me through. but I wouldn't do it for \$1 billion all the money in the world again, I hope my wife don't leave me. what they put me through. but I wouldn't do it for \$1 billion all the money in the world again, I hope my wife don't leave me. We've been married since August Jesus are holy spirit of God pull the cat out of the hat with her. She's the one I've been waiting for all my life. She should be a saint or an angel I can't even believe she married me. It was worse at our last apartment now we're up in Ojai, California 190 Fairway Ln. Ojai California 93023 good They lock onto my house the military on weekends and they have so much stuff where they can see me at all times they can bring my bedroom up and have it up in in there like station a bit below the God origin or realm because they have a port or something up there where they brought me up twice and kind of fix me up, but when it went bad, it went bad. I don't deserve to die or be tortured anymore. Please stop them. My phone number is 310.269-9894 my wife is beautiful the sweetest thing you've ever seen and she loves Jesus she's the most friendly loving pretty woman I've ever seen and they stripped me within seconds if I wake up on a kick stand or to make love at night or anytime they're in our bedroom they're in our bathroom And they strip everything out of my system. Even Viagra won't work testosterone shots. They can strip it in seconds, and I can't make love to my wife and they don't care. This is the sickest twisted thing I've ever seen in my entire life and it's happening to me. Sometimes if some of them aren't around or it's right, I get her, but I don't wanna lose her. This is the best one I've ever had in all my life, woman and women only. They kept telling me they were gonna bring me up. They kept telling me they're gonna get the port out of my head or bring me so many times they are not, and they smoosh the people up in eye after they go up to the hierarchies my friends on Facebook

smoosh the people up in eye after they go up to the hierarchies my friends on Facebook
I have hundreds of them and they sauce it up I have never drank so much in my life
because they have been torturing me all these years. I can't help it. They hurt me so
bad they can get me in like the guillotine where crimps my whole body they can hurt me
in ways. We're using terrorist in foreign countries, Al-Quadin, Hamas, and terrorist.
Please Please contact me. I gotta get out of California. They have home still in Santa
Barbara. They have a lot of connections and Vandenberg Air Force Base, where I think
the father and & McGill he worked out a better believe it. I don't know if they have me
like as a government employee on the weekends when others come onto the ship it's
like they're looking in on me and like I don't know what what they're expecting but some
of them want me dead they have a hatred for me and I don't know how they're up in a
place like that with a hatred towards a person who loves Jesus so much and notices
Bible so well even though I might not a guy ever got up There, but I gotta get out of this
house if this port comes out I'm gonna need military protection if I were to put one of
them in jail, they'd kill me all they gotta do is send them from the ship or other ships or
they have friends on our connections that are up in that origin They can kill you in a few
minutes, but I've been crying bloody murder on Facebook and people will know I'm
putting their names out there and everything. I'm trying to save my life. But they're so
high with the government and military. Most of my friends can't stop them and they lie
and deceive. They're never bringing me up and I don't know why they're getting paid by
the military, but I know they owe the military money back if I don't die I'm an American
citizen under the Bill of Rights and Constitution ain't in no government. They might have
me on there like I work for the government or somethin. I don't know how the heck this

citizen under the Bill of Rights and Constitution ain't in no government. They might have me on there like I work for the government or something. I don't know how the heck this is happening. I don't need to put any of them in jail or court Marshall but I want millions of dollars and maybe some protection somewhere in the country me and my wife like the beach. I'm telling you they'll be able to find me and they could kill me so I'm not gonna try to put them in jail, but I want money whether I gotta personally assume or the government I wouldn't do it for \$1 billion again, please contact me or have a military get a hold of my federal attorneys. All I want is to get money and walk away. I'll leave America. I just don't wanna die and lose my wife or be tied off down the road and Killed. I'm not really wanting to press charges, but I don't wanna die and I don't wanna be tortured another day. But some millions would sure be good. I'm 62 years old my wife 67 but very beautiful and sweet and lovely, please somebody fly me in my wife they tie off at my voice box. They're so high tech and so high up in God and up in that origin and more for a military they can make it sound like it's me sometimes some of them talk through me and my wife here's a daily not sometimes Since I've known her and she knows it's another guy. She sometimes says I know that ain't she knows it she knows it so what can I do to me with the hierarchies keep getting orders if I'm saying, I hate God or anything like that they just keep hurting me. I wouldn't take all the money in the world to go through it, but please get my wife and me some money and make sure they never get in our lives again or military protection our number I can call if I feel like they show up at my house and start tying me off or something Please somebody call me. I'm not crazy. I am so on the money run their names and figure out if I'm telling the truth call

Updated 2023-03-19 08:34:00 they have their names they might have changed them again. They are not the same.

me I can get you their names they might've changed them again. They see my every move. They can read your thoughts. Your thoughts go up and they can. They can speak before I even get a thought out of my head there can be five or six or seven of them packed in at my head and I heard all the voices for years. I know what each one of them sounds like someone I know who they are and some I don't I know who the father is. I know who McGillis is. I know who Janine Devenzin in a few I wouldn't want to get in trouble they can shoot things into my body suck everything out of my body don't that'll be good, they have my phone that ship has had my phone wired.
